OWNER/ DIGITAL SOLUTIONS ENGINEER

I operate under Renfer Digital Solutions LLC, partnering with clients from project kickoff through post-launch support to define and implement cohesive digital presences.

JUNE 2025 -
PRES.

INTERFACE ENGINEER

SOLTECH - ATLANTA, GA

As an Interface Engineer at Soltech, I designed and developed responsive, user-centered websites and applications using a variety of tech stacks. I maintained high-profile sites like soltech.net on WP Engine, collaborated across teams to translate project goals into polished front-end solutions, integrated third-party tools, and contributed to scalable, maintainable codebases across a variety of client projects and industries.

JULY 2021 -
JUNE 2025

SENIOR WEB DEVELOPER

TACTIC EDGE SOLUTIONS - ATLANTA, GA

The position was an opportunity to expand web knowledge and toolkit. It involved launching and maintaining multiple WordPress sites, as well as assisting in the development of features in customer-facing web applications. It also involved creating mock-ups and implementing improvements to the user experiences and interfaces of web applications.

SEPT. 2020 -
MAY 2021

SENIOR WEB DEVELOPER

GARDNER-WEBB UNIVERSITY - NC

The position fielded inquiries from every department and included satisfying requests from faculty, staff and students alike. They ranged from more simple updates, to launching newly designed sections and landing pages, to creating database-driven web applications. Additionally, the position was responsible for developing university marketing campaigns on the web to promote student enrollment.
